

Mary's Community Fund is a legacy project to continue the life and work of Mary Seton Corboy, the founder of Greensgrow and a visionary in supporting a greener Philadelphia. The Fund provides small grants to individuals or organizations in Kensington, the Riverwards, and West Philadelphia for projects that will:

- Improve neighborhood public spaces;
- Beautify the community;
- Nurture a shared sense of neighborhood identity and community pride

ELIGIBILITY

To be eligible, a project must meet the following criteria:

- Project location must be in Kensington, Riverwards or West Philadelphia.
- Applicants must represent a specific neighborhood or organization and have assembled a team of people willing to work together on the project. Churches, schools, non-profits, block captains, and other community-based groups are all eligible to apply, but individuals may not apply for a project only led by themselves.
- Projects must align with Greensgrow's commitment to creating a greener and healthier city.
- If the proposed project site is on private property, applicants must obtain written permission from the property owner to complete the project before applying.
- Applicant groups must have a plan for maintenance of the project.

FUNDING GUIDELINES

Each applicant group may request up to \$1000 in direct grant support towards the supplies and equipment portion of their project budget.

- Applications will be screened and selected by a committee of Greensgrow staff, neighbors, and representatives from the Corboy family.
- Funds will be for reimbursement of project expenses only, no cash will be given out. Winners can request funds as a Greensgrow gift card or request direct payment to an external vendor in lieu of reimbursement if preferred.
- All funding must be spent within 6 months of the date it is received (variances will be granted on a case-by case basis).
- Once funds are approved, the project must be executed before September 31, 2018.

Groups must submit a report and photos of the project by November 2018 updating Greensgrow on the status of the project and any impact.
